RUST PROOF IRON,

FOR

ROOFING WINDOW SHUTTERS, &c.

THE subscribers beg to call the attention of all those interested in roofing, to their GALVANIZED TIN PLATES, and to the many advantages which they possess over all metalic and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust, having now been tested several years, both in this country and in Europe. They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate, Iron, Zinc &c, or any other mode now used for roofing, and consequently form a much better and tighter roof, requiring far less frequent repair, whilst the first cost is but a trifle more.

The subscribers would also call the attention of all dealers and workers in metals, to the many other purposes to which Iron thus protected, can be applied. In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere. And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire, which is now almost entirely used in Europe and which answers every purpose as a conductor of electricity, costing only about one half as much as copper, and possessing equal durability with that metal.

Having lately erected works in this city for the purpose of galvanizing Nails, Spikes, Bolts, Wire, &c, they will be able to furnish any article which may be desired. A supply of Plates (manufactured in Europe) constantly on hand, from 16 to 32 wire gauge.

BOMMER'S METHOD,

PATENTS.

AMERICAN AND FOREIGN OFFICE, And Agency of the U S Patent Office, Washington.

23 State Street—Boston.

THE subscriber by appointment from the Commissioner of Patents, is Agent of the U S Patent Office for the purpose of receiving and forwarding to the same all such models, specimens of ingredients and manufactures as shall be intended to be patented or deposited therein, which will be received and forwarded, free of expense and risk, to their owners, and with all possible despatch. The subscriber will prepare Caveats, Specifications, Assignments and all the necessary Papers and Drawings, will make researches into American and Foreign works, for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the trouble and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. The experience of fifteen year's practice—an extensive collection of rare works, documents, decisions, &c on mechanical subjects and the Patent Laws—and patents of different countries collected at much expense during the long time this office has been established, and to which daily additions are being made, together with records here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents, which in other respects might be difficult of attainment.

DR. UPHAM'S

Vegetable Internal Remedy

FOR THE PILES!

☞ A Cure for Life Secured. ☜

For the cure of Piles, Inflamation of the Liver and Spleen, Inflamation, Soreness and Ulceration of the Stomach, Bowels, Kidney and Bladder, Inflammatory and Mercurial Rheumatism, Impurity of Blood, Weakness and Inflammation of the Spine, and for the relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY, invented by Dr A Upham, a distinguished Physician of New York City, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark this! It is an INTERNAL REMEDY—not an external application and will cure any case of Piles, either bleeding or blind, internal or external, and probably the only thing that will. There is no mistake about it. It is a positive cure—*speedy and permanent*. It is also a convenient medicine to take, and improves the general health in a remarkable manner.

Each box contains twelve doses, at 8 1-3 cts per dose. It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger.—All external applications are in the highest degree disagreeable, inconvenient and offensive, and from the very nature of the disease, temporary in their effects. This Medicine attacks the disease at its source and, REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES.

Although this ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine far superior to all others, in all diseases of an inflammatory character, with a determination of blood to any particular part or organ. In Inflammation and congestion of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder, in Inflammatory and mercurial rheumatism, it is the Best Medicine ever discovered.

IMPURITIES OF THE BLOOD.

For all impurities of the Blood, arising from the imprudent use of Mercury, or other causes, for all diseases of the Skin, and Scrofulous Affections, in all cases where the blood is powerfully determined to the head, producing dizziness and distress, DR UPHAM'S ELECTUARY is entirely unrivalled.

TO MARRIED LADIES.

Married Ladies are almost invariably subject to that painful and injurious disease, the PILES, with consequent inflammation of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head &c.—The Electuary is perfectly safe for Pregnant Ladies, and the most useful Cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases, WITHOUT PAIN or IRRITATION but will ensure an easy time, a safe delivery, and a sound constitution in the offspring.

CURE FOR LIFE GUARANTIED.

The Electuary contains NO MINERAL Medicine, no Aloes, Colocynth, Gamboge, or other powerful and irritating purgative. No fear of taking cold while under its influence, no change in diet necessary. If taken according to the directions, A CURE FOR LIFE IS GUARANTIED.

Pamphlets giving valuable information respecting this Medicine, may be had of Agents, or of D F BRADLEE, 130 Washington st Boston, General Agent for the New England States.

GREAT SUCCESS OF UPHAM'S **PILE ELECTUARY.**

Portland, Me, March 11, 1847

Dr UPHAM—My dear Sir—I cannot express to you my sincere and heartfelt thanks for the wonderful cure I have experienced by the use of your truly valuable Pile Electuary. I have been a perfect martyr to the Bleeding Piles for 12 years past, so much so that I became reduced to almost a skeleton, with loss of appetite, and general derangement of the digestive organs. My eyes also became affected, and in fact I was a misery to myself. I was obliged to give up my business. I had tried all kinds of medicine, had the best advice the Doctors in Boston and this place could afford, spent much money—and twice submitted to painful operations. I had become perfectly tired of life, and at the suggestion of my friends I was induced to try a box of your medicine. The first I found to relieve me slightly, still I persevered, and purchased a second, and I assure you when I got half through, I found myself getting well, still I kept on, and now I am a well man. My dear Sir, language cannot express the heart felt thanks that, I am once more restored to health, and now in a condition to support my large family, dependent on me.

You can use this letter as you please.

Yours respectfully, SAMUEL CHARLTON

Thompson's Compound Syrup of Tar and Wood Naptha.—If a man ail, common sense will suggest that he ought to have recourse to proper medicines for the removal of his ailments. This may be done either by consulting a respectable physician, or by taking a preparation which has been properly tested, and met with the universal approval of the public. This plan, however, is seldom adopted owing to the specious advertisements of villainous quacks, who unblushingly assert that one particular medicine will cure every disease that flesh is heir to, from the tooth ache to the gout. These wicked fabrications are read by a majority of the people who swallow the bait, the result of which is, the public are first plundered, then half if not quite poisoned, and the rogue's fortune is made, "*quod erat demonstrandum.*" How much better it would be if people would inquire into the merits of a particular medicine before purchasing. It would remove all doubts, and secure the purchaser from imposition. We make the above remarks to introduce to our readers "Thompson's Compound Syrup of Tar and Wood Naptha, a preparation of *standard merit* for the relief of consumption, asthma and affections and diseases of the lungs and throat. This medicine we have used with the most triumphant results, and many cases of affections of the lungs have come under our notice which were speedily cured by a few bottles of *Thomson's Compound Syrup of Tar and Wood Naptha*. Be particular and get the genuine. It is prepared only by Agnew & Dickson, at the N E corner of Fifth and Spruce streets.

To the Honorable Justices of the

District Court for the Eastern District begun and holden at Bangor within and for the County of Penobscot January Term A D 1847.

THE Petition of Page Eaton of Henniker in the County of Merrimac and State of New Hampshire shows, that he has heretofore been duly appointed and approved by the legal authorities in New Hampshire and in Maine guardian of Elizabeth B Cram, Lucilla H Cram, James F Cram, and Thomas L Cram minors and children and heirs of James Cram and of Lydia K Cram then Father and Mother, late of Dixmont in the County of Penobscot, Maine, that he and his said wards do not reside within this State. He would further represent that his said wards are seized in fee simple of the following parcels of land in said Dixmont, viz One undivided half of a certain track or piece of land in said Dixmont beginning at the east side of the town road at a stake and stones, leading from Dixmont Mills to Plymouth, thence East 30° north 14 rods to a stake and stones, thence South 10° East five rods 17 links to a stake and stones, thence West 10° South 14 rods to the East side of the road aforesaid, to a stake and stones, thence northwardly by the east side of said road to the first bound.

Also one half of the turning Mill on the stream adjoining the south east corner of the before described premises, and also one half of the Mill privilege and all the privileges granted to Robert Bradford by William Stevens by Deed dated July 16 1831.

Also one other parcel of land described as follows, beginning at a stake and stones on the west side of the road leading from Dixmont Mills (so called) to Dixmont corner and at land belonging to Stephen W. Hussey, thence South 30° East by the west line of said road four rods to a stake and stones, thence West 30° south 13 rods to a stake and stones, thence in a straight line to said Hussey's south west corner near the Mill pond, thence East thirty degrees north by said Hussey's south line 13 rods to the first bound, containing fifty five square rods, and the two above described parcels being the same conveyed by Robert Bradford to said Lydia K Cram by deeds recorded in Penobscot Registry, book 113, pages 340 and 341, reference thereto being had.

And your petitioner would further represent that it would be for the benefit of his said wards that the same should be disposed of and the proceeds thereof put out at interest, and he would also represent that there is not sufficient personal property and estate belonging to said wards for their support. Wherefore he prays that he may be licensed to sell said real estate at public or private sale, according to law, for the reasons aforesaid, observing all the directions of the law in the premises.

WEDNESDAY, SEPT. 15, 1847.

The Election.

The returns from the election on Monday last come in very slowly. There has been very little excitement during the campaign and the loco leaders, by a close and quiet drill, had calculated on throwing a large relative vote and thus have accomplished something in the way of exciting hopes for the next year's great trial. They have succeeded in getting back in this vicinity at least most of their men who have for some time voted with the Liberty party, and also the independent vote from their ranks last year.

The Whig candidate for Governor last year was in a minority in this city of 53 votes, while this year he has [illegible] 103 [illegible] Whig gain of 171.

There is [illegible] in the loco ranks as is shown by the votes in this city and other towns for Senators. They have here a majority of between two or three hundred votes and in Oldtown the Whig candidates for Senators received a very large and significant vote.

We gather very little hope from the returns we have received. Had the Whigs generally been at home and come out fully to the polls, as they should have done, upon the small vote thrown they could easily have elected their member of Congress and their Senators.

It now appears that Maine chooses to hug to locofocoism another year.

Sale of Townships.

The Land Agent of the State sold several townships at auction in this city yesterday. There were a large number of persons in attendance.— The terms were one fifth cash down and a credit of one, two, three, four and five years given on the balance, the State holding a lien of $1.00 on every thousand feet of logs cut upon the townships. The Range and No are reckoned West from the East line of the State. The sale resulted as follows:—

North half of No 1 Range 13 minimum 50 cts sold for [illegible] to N H Dillingham

No 5 R 13, min $1 15 sold for $1[illegible] to S P [illegible]son & Co

Emancipation in French Guinea.

The Salem Register states upon information derived from Capt Clark, of brig Romp, which has arrived at Salem from Cayenne, having sailed Aug 5th—that great excitement prevailed there in reference to the question of abolishing slavery which has been in agitation for some years. The Colonial Council has hitherto had a large majority in favor of the measure but the minority, though small, was turbulent, and had contrived to hinder the consummation of the measure. The most intelligent planters favored emancipation.

Meanwhile new laws have been passed by the French chambers modifying servitude, and the feeling in favor of emancipation has greatly increased so that at the election for a new Council on the 29th July, the friends of the measure succeeded in electing a board unanimously on their side. The next advices therefore, will probably be that a decisive step has been taken to effect emancipation.

Barnard Slate Quarries.

The following extract of a letter from Mr William Hughes, at the State quarries will show some matters of interest in that locality.

"The quarry on the west side of the Pleasant river was opened since the middle of last month. I always had a good hope that this quarry would turn out to be a good one, and now I have the satisfaction to see it fully realizing my expectation. This is the place where I discovered these slate quarries first when I came to this country four years ago.

The quarry undoubtedly will turn out good. It is owned by the men who work it, and it is fully expected that they will be able to send 300 squares of merchantable slates to Bangor next summer."

☞ The Vera Cruz correspondent of the N O Com Times states, on the authority of letters from Mexico, that the citizens of the Capital turned out, almost to a man, to defend their homes; that old and young, and those barely able to raise a musket, from age, or sickness or youth, all volunteered to meet the long dreaded enemy at their doors; that the number of men thus gathered under the Mexican flag was probably not less than thirty thousand, generally well armed; that the Mexicans were supplied with a fine park of artillery, numbering at least thirty-six pieces, and were otherwise possessed of great advantages for defence; and that all party feelings were forgotten and Santa Anna surrounded by the best men in the nation, General Herrera among them.

It would seem that the city of Mexico is absolutely at our mercy, being surrounded by our army, General Worth being with his division in the rear, with power to cut off all supplies from that quarter.

☞ Our readers have been apprised of the fact that a new semi monthly periodical has been established in Boston under the editorial charge of Rev Mr Freeman, formerly of this city. This periodical is worthy the attention of the whole reading public, particularly our young men.— Rev Mr Freeman is now on a visit to this city for the purpose of extending the work and all desirous of obtaining something really elegant and substantially valuable, in the way of literature, science and art, will do well to avail themselves of this opportunity and subscribe for the Daguerreotype.

☞ One of our neighbors, has taken great pains in the cultivation of a garden and had begun to enjoy the fruits of his labor in the rich products of his soil. But the everlasting annoyance, hogs at large, forced themselves into his enclosure, and destroyed his garden, trampling down his corn, rooting up his vegetables, breaking his squashes and turning upside down his beautiful flower bed! It is abominable that our citizens should be subjected to such an abominable nuisance—night prowling and day sleeping hogs—especially when it is reduced to a system, and hogs are trained thus to take the liberty of the city in the night, and wend their way homeward at the early dawn, or if belated to be sought for by the owner!

It is said that shooting hogs and leaving them dead by the road side is an excellent preventive against their return visits! We know of one or two men who are fully prepared!

☞ Mr George L Tyler auctioneer in Boston was recently attacked by an Irishman who had made an unsuccessful attempt to grab his watch after asking him the time of day. As Mr Tyler was in the habit of knocking down various articles to the highest bidder, he tried his skill on the character of him who was knocked down just before a watchman appeared to take him.

Concert, this Evening.

The Peak Family will give another of their excellent concerts this evening, as they were obliged to postpone their concert on Monday evening on account of the violent rain. They are good, singers, and richly deserve a full house.

☞ The editor of the Boston Chronotype, has been indicted for a libel on Lieut Col Isaac Wright, by publishing a letter written by a volunteer in his regiment. The editor pleads not guilty and the case is continued for trial.

☞ We tender our thanks to Col Maxwell, conductor on the Eastern Rail Road, to Capt Jewett, and to Mr Haines, Clerk of the Governor, for papers forwarded us yesterday, in advance of the Mail, by our prompt friend Mr Taylor.

☞ The weather for several days, has been overcast, misty, with occasional rain—quite unfavorable to farmers whose oats and other grains were exposed. It cleared away yesterday, and appears now hopeful.

☞ The rain on Monday must have tickled up the streams considerably, and probably set them at work.

☞ The Isabella and Catawba grapes are unusually backward in Massachusetts, the present season.

☞ The great fair of the Mechanics Association opens in Boston this day, and will probably continue open two weeks.

For the Whig & Courier.

There Slumber Four!

In one bright green spot where the branches wave
(The story is not long, your patience I will crave)
Where the [illegible] sweeps,
And echo the murmuring [illegible] keeps,
There slumber four
Of this earth no more.

Pilgrim, look down on this holy scene
Is fraught with a mother's prayer
And stars—brightest stars [illegible] light softly gleam
O'er earth. The [illegible] that faded [illegible] fair
For they all slumber four
On this earth no more.

Fain cherubs reposing on earth's green breast
The violet sweet shall perfume o'er their rest
The [illegible] with his golden head
And [illegible] singing [illegible] thy bed
There flitting so lightly—[illegible]
Spread his emerald wing and fly far away,
Like all [illegible] gleams that appear for a day
But [illegible] ye Four
Of this earth no more.

At noon the hot beams of the sun is there!
And the locust is heard in the sultry air
The flowers bend down in their honied perfume
And the bright painted butterfly's [illegible] sweet bloom!
All around—high above—all's pure summer air
There is life—teeming life—but Oh God! they lie here
Lie here—and all unvailing the bitter tear
For they still slumber Four,
Of this earth no more.

Two measured graves side by side they both lie!
Tread not on—nor pass them thoughtlessly by!
More gently—speak low—for the dust is most dear
Of [illegible] infant angels—[illegible] here
Whisper low—and press gently the grassy sod,
For [illegible]—*can it be that I have gone to his God?*
It is well—but creature life was it him?
Great God—shall we break the *Edward's* [illegible]

The silvery dews of the night lie there!
Each leaf is mantled in the Evening air!
The whip-poor-will sings her sweet lay of love,
And the hues of the fire fly illumine the grove,
[illegible]
In unbroken rest—and there comes no reply
Or [illegible] sound from the dew spangled sod
[illegible] only their graves in the moonlight O God,
Are seen when in silence here yet slumber Four
Who are of this beauteous world no more.

But Thou hast a future! and Thou art our God!
What comfort—what joy—where this journey is trod,
And the sweet [illegible] youth are all flown
[illegible] visions!—left only in memory alone!
What comfort what joy that our God will [illegible] all
That we most prize on earth or would wish to recall,
Early loves—sweet affections—some kindred and [illegible]
And the dream of Life's morn [illegible]
All—all will come back—bright [illegible]
Great God shall we murmur [illegible] or pain?

Thou hast caused it—it was fitting, 'tis right, and 'twas just!
That God of all mercy! will [illegible] in the dust
[illegible] shall be laid like the ones we deplore
(For that our souls rest with thee evermore)
[illegible] their again in Thy region of light,
Where death never comes nor sorrow or night
Till then rest in peace, sweet ones slumber Four,
Who are of this changing scene no more.

RICHMOND, September 13, } 12 o'clock, M }

The steamer Telegraph arrived at New Orleans on Sunday, 5th inst, with later advices from the army under Gen Taylor.

Major Lally's Command.

A correspondent of one of the New Orleans papers, writing from Vera Cruz, thus speaks of the difficulties encountered by Maj Lally, who commanded a valuable baggage train, escorted by 800 men. The guerrillas seem to be in earnest:

"[illegible] we learn that Major Lally has arrived [illegible] train, after much fighting and suffering, and some loss. He himself was wounded in the wrist and by a lance in the temple, from which we judge there had been some close work. No reinforcements from [illegible] had yet reached him, and the guerrillas were still around him harassing his small command terribly. Indeed a fight took place in the streets after his arrival between the American patrol and a small party of guerrillas resulting as usual, although the latter were the larger party.

The main body of the guerrillas are said to have fallen back a few miles beyond Jalapa where they hope to complete the destruction of the train, and where they can at least cut off if not cut up the small reinforcement from Perote. I think Maj Lally's danger is great and am really fearful that he will not reach Perote. The value of this train entices many of the rancheros of the neighboring country, who would never think of fighting unless tempted by the prospect of sharing in the spoils. Unfortunately too, the report is general throughout the country that there are several wagons of specie in the train, and that it is much more valuable than it really is."

It is thought that Major Lally will retain his position at Jalapa until he is relieved by the new regiments which were about to march from Vera Cruz to join Gen Scott. One account says that the Major had left Jalapa and arrived at Perote. The following extract shows the condition of our naval forces on that station:—

"There is still much sickness in the Commodore's little squadron, but it remains at its post prepared to suffer more and longer. Suffering however has become so common that no one of the army or navy thinks of uttering a complaint. When the poor fellows grow utterly unable to move or feel they are sent home, which if they do not die on the way, they reach in a condition incapable of enjoyment for the few years their ruined systems consent to hold life."

Awful Massacre at Yucatan.

The New Orleans Picayune of the 27th ult contains a letter from Vera Cruz giving the following account of an insurrection among the Indians at Yucatan and a massacre of the white population:—

"On Sunday last the city was startled with intelligence from Yucatan that the whole Indian population of that State had risen against the whites, and in some districts massacred entirely the white population with the exception of the women, whom they only spared for a fate still worse than death. The news was received here by the French consul in a communication from the French consul at Campeachy and the massacre he says was universal, no distinction being made except between Indians and whites. In some of the districts the whites have succeeded in reaching the cities and were there waiting succor. There is good reason to hope that these will be able to defend themselves until they are reinforced. At Campeachy they were in expectation of an immediate attack. The French brigs of war La Perouse and La Plata have it is understood both been ordered to Campeachy, and there is a report that Commodore Perry is about ordering down one of the vessels of our squadron.

There is perhaps some exaggeration in the accounts of the extent of the massacre, but of the main facts there is not a doubt. The Indians in Yucatan have been more oppressed than in any part of Mexico, because the landholders are generally absentees residing in Spain and trust the management of their estates to stewards who to subserve their own interests grind the unfortunate peon to the dust."

Vermont Elections.

We present below, returns from 145 towns in Vermont. The Whig candidate for Governor leads the loco candidate nearly three thousand. There is of course, no choice by the people, a fact not unusual in Vermont.

The Legislature will be closer than we at first anticipated. The Whigs last year elected the Senators in Windham, 3; Bennington 2, Windsor, 4 Rutland, 3, Addison 2, Chittenden 2 Caledonia, 2 Franklin 3 Orleans 1, and Essex. The Locos elected those in Orange, 1, Washington, 2, Lamoille, 1 Grand Isle 1. This gave the Whigs 23, and the Locos 7.

Judging from the vote for Governor, we presume the Whigs have now carried Windham Windsor, Rutland, Addison, Orleans and Chittenden beyond doubt, which would give the Whigs 15 or one half. We think they have also carried 3 in Franklin, 2 in Bennington.— From Essex County we have returns from three towns only, which stand, relatively, precisely as last year, and we have, therefore, a right to claim the Senator there until the returns show the reverse. From Grand Isle county we have no returns. The vote last year in the county for Governor was, Whig 324, Loco 225, Liberty 6.

Some of the Locofoco papers claim a majority in the Senate, and others claim one half of the whole number. They have no returns to warrant either claims.

As regards Representatives, we have complete returns from every town in Windsor, Chittenden, Bennington, Windham, Franklin, Caledonia, Orleans, Rutland, Orange, Lamoille and from all in Addison but 2, and we have 3 towns in Essex, being all the towns in the State but 15, and they show the following result. Whigs 90—Locos 77—Liberty 10. In the towns to hear from, the Whigs will elect at least one half, they ought to elect two thirds.—

Death of Hon. P. T. Jackson.

The Hon P T Jackson, a leading merchant of this city died yesterday, at 11 A M, at Beverly, of dysentery, after a short sickness of two or three days. Mr Jackson was 72 years of age. The present generation will not need to be told who he was. It is sufficient to say that he was a pioneer in most of the important undertakings which have made Boston what she is, and prepared her for her great future. The death of such a man is a misfortune, both to the city and the State.

Curious Railroad Accident.

On Saturday evening, as the New York steamboat train was entering Worcester, and shooting into the Depot of the Norwich Railroad, the axle of the forward car gave way.— The locomotive ahead went into the proper depot, but the [illegible] of the broken axle displaced the switch, and the remainder of the train went pell mell into and through the engine house displacing in its course a locomotive and overturning a small building.

No one was in the least injured though the passengers were somewhat rudely jostled together. This freedom from injury was owing solely, to the fact that the passengers were, very wisely, all in their proper places. A head thrust out at a window at this moment would probably have led to very unpleasant consequences.—[Boston Trav.

Foreign Railroads.

The Foreign Correspondent of the Boston Atlas gives a very graphic and interesting description of some of the foreign Railroads and the manner in which they are conducted.

"The Railroad from Havre to Paris, like other continental railroads, is in striking contrast to ours in solidity and beauty of construction—in the perfect order and regularity in which they are conducted so necessary to the safety of life, and in so little regarded at home as to be the subject of common remark and reproach against us by Europeans. Government here regulates these matters and the whole management appears somewhat like martial law, a little obnoxious at first to us Yankees. Numerous sentry sentinels in uniform guard the line of road at regular distances apart having their sentry house and always must be at their post standing in a particular attitude as the trains pass. Indeed [illegible] stiff and motionless do they stand that if the trains passed without a high speed they would be mistaken for mile posts. Then, again the trains have numerous officers with a neat blue uniform and cap like a military undress, all under a superintendent. The depots are severally guarded by officers, having also a superior who regulates the departure of the trains from station to station which are regulated to a minute so that in traveling 600 miles from Paris via Brussels to Cologne you know exactly by the printed tickets at what moment you will depart from place to place and time of arrival at your destination.

One of the [illegible] features of continental railroads, is the finish of the grading, the grassing or sodding of the embankments and edges being done to a garden line and nicely travelled—many places along the lines and the stations and grounds around are embellished with hedges, borders flowering shrubbery and flower beds finished with an artist's hand. I must not omit to mention, that all persons are excluded by fences from the stations, except the travellers [illegible]—and they are not allowed to stand about near the cars, but have their portioned places to stand or walk about in and out of doors. This last regulation however is on French roads,—in Belgium and Prussia you have your safety in your own keeping, which I like full as well except they fasten you in the cars and make your liberty subject to a tin key who watches over you which is not so much to my taste.— However on the whole they are the admiration of us Yankees,—and to return to our Havre Railroad I must not omit to mention the stupendous and beautiful stone bridge thrown across a deep valley over a town in passing which you look down upon some of the tallest forest trees. There are several tunnels through the hills one of which is three miles in length—and I find tunnelling here very frequent instead of deep cuts. I have just heard of an improved tunnel in Italy making for a railroad, wells or perpendicular tunnels are made from the top to the horizontal one which is to be five miles in length thus giving a facility for raising the excavations by steam instead of conveying it out a long distance—and giving light and air in the subterraneous passage—an improvement on the long dismal and damp tunnel now in use. The rails which are like our heavy T rail are very securely laid and fastened to hard wood timbers, entirely covered with fine gravel. The cars have each three entirely separated divisions holding eight and en persons each in first and second class—the third and fourth being without divisions. The speed is about twenty five miles an hour."

An Irish Compliment.

A lovely girl was bending her head over a rose tree which a lady was purchasing from an Irish basket woman in Covent garden market when the woman looking kindly at the young beauty, said,

"Axes yer pardon young lady, but if it be pleasing to ye, I'd thank you to keep your cheek away from that rose, ye'll put the lady out o' consait wid the color of her flower."

☞ Among the graduates from the Oberlin Institute, Ohio, this season was a young colored man of fine talents Mr Wm H Day, of Northampton, Mass. His oration at commencement is spoken of as of a high character, both as regards thought, language and manner.

This method of warming houses hospitals and other buildings promotes ventilation which is a most valuable consideration — for people in health nothing more agreeable for the sick nothing more necessary. PATENT HOT-AIR FURNACE.

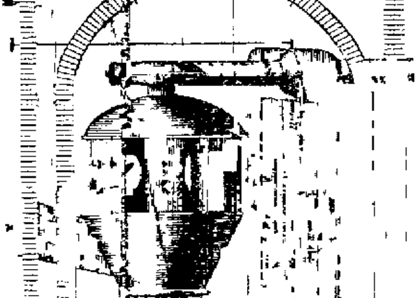
THE HOT-AIR FURNACE is an article the object and purpose of which is to heat dwelling-houses and other buildings with a pure, comfortable healthful warm air, produced from the fire the heat so distributed and conducted from the Furnace to the several rooms or portions of buildings to be warmed through tin conductors, in such manner that two three, or all can be heated when required by movements of valves or registers for such purposes inserted in the floors or ceilings of the rooms. This method is new and but few comparatively have become acquainted with its utility



The Furnace is placed in the cellar or basement of the building to be warmed and when convenient directly under the principal rooms to be heated and as near a good chimney flue as practicable. By this mode of warming dwelling houses the dust filth and rubbish resulting from the use of fire places grates or stoves are all removed to the cellar room, out of the way and nothing is admitted to the room but the healthful and pure warm air

This method of warming houses hospitals and other buildings promotes ventilation which is a most valuable consideration — for [illegible] health [illegible] agreeable [illegible] In winter [illegible] is evenly and gently wafted [illegible] the rooms diffu[illegible] comfor[illegible] every wh[illegible] [illegible] being [illegible] is found [illegible]

DR. S. O. RICHARDSON'S CONCENTRATED Sherry-Wine Bitters.

THE Proprietor of this medicine offers to the public the result of far extensive practice and a thorough investigation of the laws which govern the human system

It cannot be denied by those who have become acquainted with the singular virtues of these Bitters that they possess a pre eminence over all others now in use, for the diseases which they profess to cure

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels, in youthful adult and declining life

The extensive sympathies which subsist between these and every other part of the living body is the foundation of Nervous Diseases of all kinds—Irregular Appetite Languor Drowsiness, Wandering Pains, Headache, Lowness of Spirits &c

And these in their turn, give birth to Dyspepsia, Palpitation of the Heart Shortness of Breath, Jaundice Piles Fever, Inflammatory Humors Coughs, and a host of diseases which embitter life and poison all sources of enjoyment

The distinguished character of these Bitters is most striking, their operation being more or less powerful according to the violence of the disease When used in appropriate quantity, in cases of slight derangement of the Stomach and Bowels, caused by costiveness or a slight bilious difficulty and the like, where nature needs assistance to prevent more serious consequences, they will be sure to help

On the contrary, in obstinate cases they frequently operate more powerfully, causing two or three evacuations daily until the circulating fluid becomes purified This accomplished, they act on the system in connection with our food, each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor

THE GRAEFENBERG PILLS.

THERE ARE THE MOST CONCLUSIVE REASONS why that class of Medicines denominated "PATENT," should be made the means of incalculable and enduring blessings to the human family. Suppose, for example, that a high order of talent, long and sagacious observation, and great medical learning and experience are brought to bear upon the invention and manufacture of a PILL! Why may not this long devotion to this division of medical science be crowned with the success that attends the sacrifice of similar talents and toil to other things? There is no reason, and it is but the simplest dictate of the simplest common sense to say that a Pill thus produced will be as perfect an article as can be made by man A Twenty-five years devotion to any one subject will give a man of ability the mastery over it. This labor has been bestowed upon the

Graefenberg Vegetable Pills

and they are presented to the public with claims unparalleled in the whole history of medical science

It will be seen, in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed THE FULNESS OF TIME! The mariner's compass for instance, was not invented until in the "fullness of time" it was needed The loadstone always lay at man's feet, but he never knew what a wonderful and unerring guide was treasured in its silent bosom, until the Divinely appointed time drew near when distant continents and islands were to be unveiled Behold it now transferred to the pinnacle of the adventurous sailor, enabling him to launch far away upon unknown Oceans, instead of timidly sailing within sight of familiar land marks!

So with the discovery of the New World, upon whose shores was to arise this Giant Nation to a power, a glory, a mission far beyond the conception of the wildest fancy The Old World had reached its highest destiny the "fulness of time" drew near for the revelation of the New, and behold the immortal Columbus, from the forecastle of his crazy and leaky vessel found it! So with the invention of printing of steam of the magnetic telegraph Each of these has its own "fullness of time," marked, distinct and Providential

IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED Most beautiful are the illustrations and proofs of this which are to be found in the history of the world We can trace them from the Mosaic dispensations down to the present hour, all of them teaching us the lesson and giving us the hope that something yet better to heal human maladies is at hand

That this principle is as true of Medical as of Physical science, is clearly shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it—The

Graefenberg Pills,

are deemed by all who have tested them to be an inconceivable advance upon all other medical combinations and discoveries hitherto known, and they are announced as

THE GREAT REMEDIAL TRIUMPH.
The inventor of these Pills rests his theory upon no school nor dogma of ordinary medical teachers But, throwing himself upon the revelation of the

ALMIGHTY CREATOR,

THAT
"THE BLOOD IS THE LIFE!"
he requires that his disciples and his patients make pure the life current that flows through their veins and arteries, before they can hope for a PERMANENT cure Rely, then, not upon the [illegible] but bright and joyous health must come from a pure blood

But it must be thought here comes up! So countless are the impositions which are practiced upon the public by pretenders, and so numerous and boastful are the nostrums advertised, that the reader may be slow to believe in this Great Remedy A word, therefore, on this point!

In the first place, READ THE GRAEFENBERG GAZETTE No matter how sceptic you may now be, that paper will convince you Thousands have been convinced in every State and Territory in the Union, and among them distinguished statesmen, jurists clergymen physicians, civilians The [illegible] would fill this page Let the reader send to the most convenient agency for a copy of the Gazette, which can be had

GRATIS!!

In the second place TRY THE PILLS It will cost but the merest trifle, and will introduce you to a medicine which you will deem a blessing the end of your days

Although things press upon the hands of the advertisers which they would rejoice to lay to the reader, yet the limit of this advertisement forbid But let any one afflicted with the following diseases make trial of the Graefenberg Pills and they will be PERMANENTLY CURED

Asthma	*Flatulency*
Bilious Complaints,	*Fluor Albus, or Whites,*
Boils	*Fat ric Fever,*
Bowels deficient action in	*Green Sickness.*
Breast Pang,	*Gripes,*
Catarrh	*Heartburn*
Constipation,	*Headache*
Cough of Pregnancy,	*Hysterics,*
Costiveness,	*Incontinence of Urine,*
Diarrhea	*Indigestion*

Erysipelas,	*Nervous disorders,*
Epilepsy	*Neuralgia*
Fever—Low Nervous, Intermittent, Remittent	*Rheumatism*
Fever and Ague,	*Stomach various diseases,*
	Whites

In all bilious or chronic disorders, these Pills achieve the most wonderful triumph HERE THEY DEFY COMPETITION And as the susceptibility of the American constitution is to these diseases, they are aptly styled by some

The Pill of the New World.

Their wonderful efficacy in the complaints arises from their power to OPEN THE PORES CLEANSE AND STRENGTHEN THE STOMACH AND BOWELS, MAKE THE URINE FLOW HEALTHFULLY AND CLEAR AND TO GIVE TONE AND STRENGTH TO THE SYSTEM

It is impossible, within the limits of an ordinary advertisement, to give the reader the reasons for the most extraordinary success and spread of these Pills But REASONS DO EXIST, which have abundantly satisfied the minds of thousands in this country, and among them the accomplished Physicians Jurists, Clergymen, and private citizens, male and female

NUMEROUS CERTIFICATES of the wonderful efficacy of these Pills might be presented but a certificate in these days is scarcely worth the paper on which it is printed A few extracts from the correspondence of the Company, will however, be given

FROM INDIANA
"Your enterprise is too enterprise of the day Its magnitude will astonish its originators It is destined to effect a complete revolution in the medical world"

FROM A JUSTICE OF THE PEACE IN WESTERN N YORK
"I have sold a number of boxes to the citizens of this place They have given entire satisfaction, and they are destined to become the most popular Pill of the day"

FROM TOLEDO OHIO
"Having heard so much, and witnessed two or three cases treated in the mode directed by your Journal, I have thought it important you should have an agent in this place In my opinion, more good can be done in this bilious climate by your medicine, than by the old modes,

I address you at the instance of a friend who is making a thorough trial of your remedies, and with complete success"

FROM A DISTINGUISHED GENTLEMAN OF BOSTON
Gentlemen
I cannot refrain from troubling you with a few lines to express my great pleasure in being able to say, that I have experienced the greatest relief from the effect of your Pills For many years I have suffered much from constipation, which has disarranged my whole system and I have not known a day's good health for many years past, and being an old man, I despaired of ever again enjoying life But a friend recommended me to try your Pills which I did although without any confidence, the result, I am happy to inform you, has far exceeded my expectations, the cause of my suffering is nearly removed, and I feel my health and strength daily renewed and I am satisfied that the merits of your Pills when tested, must be acknowledged by the whole community, and will become the most popular medicine of the day."

FROM JUDGE ———, OF GEORGIA.

SIRS,
Since writing to you last upon the subject of my ill health, I have been taking your medicine, and am pleased to say, that they have been of great service to me and if they continue to give me the relief I have already felt I shall bless the day you sent them I need not allude again to the sufferings I have before told you of, but intend to persevere, and hope to be able, the next time I write, to give you the happy intelligence of a perfect cure I have heard of many instances in my neighborhood wherein they have performed some extraordinary cures"

FROM AN EPISCOPAL BISHOP
Gentlemen—I consider it to be the duty of every Christian to make known to the world any advantages that they may have derived by accident or from any discovery of their own, and with this sentiment strongly impressed on my mind, I feel great gratification in having it in my power to speak in the highest terms of the valuable discovery you have made in the production of your Pills I was induced to try them, from the philosophical manner in which you have reasoned on the subject and I must do myself the pleasure, and you the justice to say, that I had no conception so speedily an effect could be arrived at My complaint has been that of the Liver from which I despaired of getting better, but since taking your Pills, I find my general health, spirits and appetite so much improved that I hope to find myself able to endure, without bodily suffering, the duties of an arduous Profession. In future I will send to your agent for more Pills when needed With great consideration and gratitude, I am &c

From every section of the entire country similar testimonials are daily received, but our limits forbid further extracts ONCE TRIED, THE GRAEFENBERG PILLS WILL SUPERSEDE ALL OTHERS.

Dr. Townsend's SARSAPARILLA,

The Most Extraordinary Medicine in the World

This extract is put up in quart bottles it is six times cheaper, pleasanter, and warranted superior to any sold It cures diseases without vomiting, purging sickening or debilitating the patient

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates disease it invigorates the body It is one of the very best Spring and Summer medicines ever known it not only purifies the whole system and strengthens the person but it creates new pure and rich blood, a power possessed by no other medicine And in this lies the grand secret of its wonderful success It has performed within the past two years, more than 35 000 cures of severe cases of disease, at least 6000 of these were considered incurable More than
3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia
4000 cases of General Debility and Want of Energy
7000 cases of the different Female Complaints,
2000 cases of Scrofula,
1500 cases of the Liver Complaint
2500 cases of Diseases of the Kidneys and Dropsy,
3000 cases of Consumption,
and thousands of cases of diseases of the blood viz—Ulcers erysipelas, saltrheum, pimples on the face &c, together with numerous cases of sick headache pain in the side and chest spinal affections, &c &c

This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures R Van Buskirk, Esq one of the most respectable druggists in Newark, N J, informs us that he can refer to more than 150 cases in that place There are thousands of cases in the City of New York which we will refer to with pleasure and to men of character It is the best medicine for the prevention of disease known It undoubtedly saved the lives of more than

5,000 CHILDREN THE PAST SEASON
as it removed the cause of disease, and prepared them for the summer season

UNITED STATES OFFICER
Capt G W McLean, of the United States Navy and member of the New Jersey Legislature has kindly sent us the following certificate It tells its own story
RAHWAY Jan 184[illegible]
A year since I was taken with the influenza and my whole system left in a debilitated state I was induced to try Dr Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved and attribute it entirely to the said Sarsaparilla I have continued taking it and find that I improve every day I believe that it saved my life, and would not be without it under any consideration G W McLEAN

SCROFULA CURED
This Certificate conclusively proves that this Sarsaparilla has perfect control of the most obstinate diseases of the blood Three persons cured in one house is unprecedented

THREE CHILDREN
Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine They were afflicted very severely with bad sores [illegible] taken some four bottles, it took them away for which I feel myself under deep obligation Yours respectfully

TO MOTHERS AND MARRIED LADIES
This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching [illegible] critical period, "the turn of life," should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life This period may be delayed for several years by using this medicine Nor is it less valuable to those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system [illegible] this medicine is invaluable for all of the delicate diseases to which women are subject It braces the whole system, renews permanently the natural energies—by removing the impurities of the body [illegible] the system [illegible] which is the cause of most medicines taken for female weakness and disease

[illegible] FEMALE MEDICINE
Dr Townsend's Sarsaparilla is a sovereign and speedy cure for incipient consumption, Barrenness, Leucorrhoea or Whites obstructed or difficult menstruation, Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness or accident

Nothing can be more surprising than its invigorating effects on the human frame [illegible] and lassitude from taking it at once become robust and full of energy under its influence It immediately counteracts the nervelessness of the female frame, which is the great cause of barrenness

It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed but we can assure the afflicted that hundreds of cases have been reported to us Several cases where families have been without children after using a few bottles of this invaluable medicine, have been blessed with healthy offspring

Dr Townsend My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of bearing down falling of the womb, and with other difficulties and having known cases where your medicine has effected great cures and also hearing it recommended for such cases as I have described I obtained a bottle of your Extract of Sarsaparilla, and followed the directions you gave me, In a short period it removed her complaints and restored her to health Being grateful for the benefits she received, I take pleasure in thus acknowledging it and recommending it to the public M D MOORE

The following is from one of the most respectable physicians on Long Island
Greenport, July 10 1846
Dr Townsend Dear Sir—It is with satisfaction that I say to you, that I have recently witnessed in several cases, the most beneficial results from the use of your Extract of Sarsaparilla Being engaged in the practice of medicine, I have prescribed it in several cases, and never without benefit In the removal of diseases arising from a deranged state of the digestive organs jaundice &c, it far excels any thing of the kind ever before offered to the public You will please send me two dozen, &c &c Respectfully yours,
S C PRESTON, M D

RHEUMATISM
This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic The astonishing cures it has performed are indeed wonderful Other remedies sometimes give temporary relief, this entirely eradicates it from the system, even when the limbs and bones are dreadfully swollen

Hear Mr Seth Perry, one of the oldest and most respectable lawyers in Hartford, Conn The following is an extract of a letter received from him

Dr Townsend—I have used one bottle of your Sarsaparilla, and I find it is excellent in its effects upon a chronic rheumatic pain to which I am subject, from an injury occasioned several years ago in a public stage Please send me two bottles to the care of Dr Seymour I have conversed with two of our principal physicians and recommended you Sarsaparilla SETH TERRY

PILES! PILES!! PILES!!!
Dr. Townsend's Sarsaparilla is no less successful in curing this distressing complaint, than for diseases of the Blood, Dyspepsia, Rheumatism and Nervous Debility. Read the following —

Dr Townsend Dear Sir—The effects of your Sarsaparilla are truly wonderful For the last six or eight years past, I have been subject to severe attacks of the piles, during which I have suffered all the tortures of that complaint, and have despaired of ever finding relief, except in death I have the pleasure to inform you "there is yet a balm in Gilead" I have used two bottles of your Sarsaparilla, and feel no remains of my old complaint I send you this for publication and any person you may refer to me, I would be happy to inform of the benefit I have received at your hands
Yours truly, JOHN HALL, 49 Fulton st
July 5 1846

CAUTION
Owing to the great success and immense sale of Dr Townsend's Sarsaparilla a number of men who were formerly our agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, &c They generally put it up in the same shaped bottles and copy our certificates and advertisements claiming that theirs is far superior and four times stronger than Dr Townsend's, &c, hoping thereby to deceive the public Some use fictitious names, a few use their own, some of these unprincipled men publish counterfeit certificates others have induced their brothers and other interested persons to allow the use of their names, to which they put 'Esquire,' to give it more force The public should be on their guard and look out for counterfeits
